REFERRAL INCOME

Referral marketing is a word-of-mouth initiative designed by a company to incentivize existing customers to introduce their family, friends and contacts to become new customers.

Different to pure word-of-mouth strategies which are primarily customer directed with the company unable to track, influence and measure message content; referral marketing encourages and rewards the referrer for allowing a company to do so.

BINARY INCOME

We provide 10% Binary income for affiliates. A person needs just one active account under the left and one active account under the right side to be eligible for Binary income. At EarningBuilder \$1 is equal to 1 Binary Points.

Example 1: A is you and B (left) and C (right) are the people who joined in by using your referral link. B invested \$800 and C invested \$1400. In this case, the weaker side is your B (left) so you get 10% of \$100 i.e \$80 will be credited in your wallet. The leftover Binary Points will be Carry Forward
